## WHY THEY FAIL.

## MOST PILE REMEDIES MISS THE CAUSE OF PILES.

Disagreeable treatment with ointments, suppositories usually fails to cure piles and cutting them off won't remove the cause. Such treatment only moderates the outside effects of the disease and fails to remedy the inside cause. The up-to-date doctors now use internal medicine, to free the circulation in the lower bowels, and so remove the disease.

Dr. Leonard's Hem-Roid, the first and only guaranteed internal pile cure—in the form of tablets—cures any kind of piles. Sold by BADCON'S PHARMACY, Ogden, Utah. \$1 for large box. Dr. Leonard Co., Station B, Buffalo, N. Y.

ARRESTED  
TEN MEN ON  
A TRAIN

Ten men were arrested at the Union depot this morning, as they stepped from an eastbound train, on suspicion of being counterfeiters. They were taken to the station and searched for "bad" coins. A five-dollar gold piece was found on one of the men, but did not seem to have the right "ring" to it, but the local bankers stated that it was full weight and would have to be accepted as good money. The men were all released.

The arrests were made upon the advice of Nevada officers to the effect that bad coins had been circulated in that state during the past few days, and that the men coming to Ogden on the early train this morning were suspected of being the men who were turning the trick. The alleged bad coin passed in the Sagebrush state was a five-dollar gold piece and so perfect an imitation of the real coin that it was almost impossible to detect the difference.

The officers here, and the special officers of the railroad company, were so sure that they were about to capture a notorious band of counterfeiters that the Southern Pacific train carrying the men was intercepted and stopped at Seventeenth street, where the men were taken into custody.

J. G. METER  
LOCATES  
PLACERS

J. G. Meter, formerly of Ogden, has arrived from Golden, Nevada, a new mining camp, in which he and George Williamson, a former railroad man of Ogden, have located ten placer claims.

Mr. Meter has brought with him sacks containing 100 pounds of gravel which carries gold and is a fair sample of the dirt found on the claims. From a double handful of the gravel Meter panned out gold that was easily worth 25 cents. Besides the free gold, the gravel carries a quantity of black sand, which carries gold.

The golden placers are situated in the Cloverdale canyon, and so far as known the ten claims located by Meter cover all the auriferous zone. The dirt is from two feet to seventeen feet in depth and underlaid by a cement hardpan. Some of the dirt will go as high as \$25 a yard and will pay to work.

Mr. Meter will remain in Ogden for a few days conferring with a number of old friends, and before leaving expects to interest a little Ogden capital in the claims.

VAUDEVILLE  
TO CLOSE  
TONIGHT

This evening the vaudeville shows at the Orpheum close for the season. From now until the second week in August the popular theater will be in the hands of a stock company. The Orpheum reopens August 5, with seven act shows and an orchestra of about fifteen pieces.

While the Orpheum has been a losing proposition for the stockholders of the company which has a lease on the house and has spent \$60,000 in remodeling and repainting the house, yet they have kept it open during the entire season, figuring that in due time the theatergoing public of Ogden would show appreciation of the house by liberal patronage. The class of shows that have been offered during the season have, with one or two exceptions, been up to the standard of the regular offerings over the entire circuit.
